

New Zealand photovoltaic energy storage system manufacturer

Overview

Paris, January 10, 2023 – Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand’s first large-scale grid-connected BESS. Which energy company is building New Zealand's first grid-connected battery energy storage system?

Meridian Energy is building New Zealand’s first large-scale grid-connected battery energy storage system (BESS) at Ruakākā on North Island. Paris, January 10, 2023 – Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand’s first large-scale grid-connected BESS.

What is Sungrow energy storage?

Sungrow have developed an innovative energy storage solution for residential applications. This battery system can be used to store excess solar generated for use at night, provide backup power for when the grid goes down or for full time off grid applications.

Who can use a power system in New Zealand?

Users include those in rural lifestyle blocks, farms and the government. With a team of experienced installers located nationwide, we are able to design, install and service your power system all over New Zealand. As a team, our focus is to supply high-quality products and services at affordable prices where possible.

What is an inverter & energy storage solution?

There is an inverter and energy storage solution for every application including grid connected, backup power and off grid. Designed specifically to suit Australian and New Zealand conditions and safety design standards.
