

Nordic rooftop photovoltaic energy storage company

Overview

Operating in 12 European countries, the solar energy company Nordic Solar is investing heavily in integrating battery storage into its portfolio of solar park projects and is now launching the construction of its first project, which is located in Denmark. What is the largest PV rooftop plant in the Nordics?

The largest PV rooftop plant in the Nordics has been completed with 24,000 panels spanning 100,000 sqm. The project feeds the DSV's 175,000 sqm logistic center in Landskrona, Sweden, with renewable energy. The project utilizes 34 units of Sungrow's SG350HX string inverter.

Is Nordic solar integrating battery storage into a solar park project?

Operating in 12 European countries, the solar energy company Nordic Solar is investing heavily in integrating battery storage into its portfolio of solar park projects and is now launching the construction of its first project, which is located in Denmark.

How many solar panels will power Landskrona's biggest Cooling warehouse?

Built on the 175,000 sqm DSV logistics center in Landskrona, 24,000 solar panels spanning 100,000 sqm will generate 14 MWdc to power the entire facility and one of the region's biggest cooling warehouses.
