

North Cyprus Power Plant to build energy storage power station

Overview

Are there private power plants in Cyprus?

As a precondition to the accession of Cyprus to the European Union, the local market for electricity generation has been opened to private companies, but so far no private power plants have been built, although four licences have been granted by Cyprus Energy Regulatory Authority.

How many energy storage applications have been approved in Cyprus?

The Cyprus Energy Regulatory Authority (CERA) representatives reported establishing a regulatory framework for energy storage in 2019, followed by market rules approval in 2021. The Cyprus Transmission System Operator has received 13 storage applications totaling 224 megawatts capacity, with eight applications processed and five under review.

Why does Cyprus waste so much energy?

AKEL MP Costas Costa characterised Cyprus as “the only country in the world where thousands of megawatt-hours go unused due to lack of centralised green energy storage systems,” adding: “During the day we waste megawatt-hours because we lack storage, and at night we are one step away from blackouts.”
