

Outdoor power supply with adjustable charging power

Overview

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

How much power does a portable power station need?

For portable power stations, capacity is measured in watt-hours (Wh), telling you how much energy the unit stores. Weekend adventures typically need 200-300Wh for smartphone charging and LED lighting. Glamping and campground camping with amenities require 500-700Wh units to power fans, portable coolers, and CPAP machines.

Why should you buy a portable power station?

The small premium for quality pays dividends through consistent performance and durability. With the right portable power station for your specific camping needs, you'll enjoy enhanced comfort, better device reliability, and the freedom to explore further without sacrificing modern conveniences. Happy camping!.

How much power do you need for camping?

Weekend adventures typically need 200-300Wh for smartphone charging and LED lighting. Glamping and campground camping with amenities require 500-700Wh units to power fans, portable coolers, and CPAP machines. RV camping and extended backcountry trips benefit from 1000Wh or higher capacity that supports multiple days off-grid.

What is PD 100W fast charging?

With PD 100W fast charging, you can charge your devices more than twice as quickly as with standard USB-C outputs. It includes 6 outlets: 2 AC ports, 1x

100W USB-C PD port, 2x 12W USB-A ports and 1x 120W Car socket, allowing you to easily power your important devices.
