

PV combiner box connected to inverter

Overview

A solar combiner box is an essential component in large solar arrays, connecting multiple solar strings to a single inverter. Its primary function is to house the input overcurrent protection fuse assemblies for solar arrays using multiple strings.

PV combiner box connected to inverter

[How to match your solar panel & Inverter with the PV combiner box](#)

Learn how to select the right inverter, calculate PV string configuration, and choose the ideal PV combiner box size for your solar project. Perfect for rooftop and wall-mounted solar systems.
