How much does a solar panel cost?

The panels cost \$345 each and the batteries are \$349 each. The 60 amps controller cost \$670, the INVERTER about \$400 Note: we did use other American made batteries that were cheaper – but eventually they all failed. Also, there are cheaper panels but the ones we buy have a 20 year guarantee.

How many Watts Does a basic solar system use?

A basic system will give you about 1,500 to 2,000 watts. What (excuse the pun) does that run?

.

We ship globally. What is the refurbishment process for used solar panels?

.

Do solar panels work if it rains a lot?

Normally, never a problem as the panels bring us back up to 100% around midday. However, during the rainy season you may have consecutive days with little or no sunshine. This year we had almost a week of rain and cloud and for the first time our 4 panels system never fully charged our batteries.
