

Photovoltaic panel prices in Malaysia

Overview

According to Sustainable Energy Development Authority (SEDA) Malaysia, the average cost of a solar panel system in Malaysia is around RM7.00 per watt. In other words, a 5-kilowatt (kW) system, which is the average size for a residential solar installation, would cost around RM35,000. How much do solar panels cost in Malaysia?

The first and most significant expense when installing solar panels is the upfront cost of the system. This includes solar panels, an inverter, mounting hardware and installation fees. On average, the cost of a solar panel system in Malaysia is between RM15,000 to RM40,000 depending on the size of the system, which is measured in kilowatts (kW).

Which solar panels are best in Malaysia?

Tip: Typically, the larger the solar system, the faster the payback period (ROI). Solar Panel Brand Top brands in Malaysia include Jinko, Trina, Longi, and JA Solar. Premium panels offer better warranties, higher efficiency, newer technology, and a longer brand history.

Are solar panels a viable alternative energy source in Malaysia?

As energy costs continue to rise and environmental concerns grow, many Malaysians are turning to solar power as an alternative energy source. Solar panels are becoming increasingly popular in Malaysian households as a way to reduce electricity costs and help the environment.

Which solar inverter should I buy in Malaysia?

It is much better to pay a little bit more and get a reputable brand that has been servicing the Malaysian market for a few years such as Canadian Solar, Longi or Jinko. You can also choose to opt for a European made inverter and pair this with a premium solar panel.

Are solar energy incentives a good investment in Malaysia?

Although this cost may seem daunting, many renewable energy incentives in Malaysia offer cost-saving opportunities for businesses and individuals alike, and contracts such as power purchase agreements (PPA) help companies avoid the upfront costs of buying and installing solar energy systems.

How much is a PV rebate in Malaysia?

The Malaysian government are offering rebates of up to RM4,000. Applications are open until the end of the year, with allocation to be determined on a first-come, first-served basis. To qualify for funds, PV systems must be running by March 31, 2025, or before quotas are used up.
