

Photovoltaic panel quality and price

Overview

Are monocrystalline solar panels better than thin-film solar panels?

Monocrystalline solar panels tend to be more efficient than polycrystalline solar panels, and both tend to perform better than thin-film solar panels. Polycrystalline solar panels are a popular option for homes but tend to have a lower efficiency rate than monocrystalline solar panels.

How do I choose the best solar panel brand?

The ConsumerAffairs Research Team conducted an unbiased evaluation of top solar panel brands on the market. To pick the best, we looked for high efficiency ratings, comprehensive warranties and good customer reviews.

Where can I buy Panasonic solar panels?

Installers of Panasonic solar panels can be found around the US. Canadian Solar makes one of the most efficient solar panels on the market. While its suite of panels doesn't quite match the leaders here in terms of performance and warranty, they're not much behind. If your installer offers Canadian Solar panels, you're getting quality panels.

Which solar panel is best?

It's the most efficient panel at 22.8% and comes with the longest warranty (40-year performance and product warranties—15 years longer than the industry standard). Maxis is the highest-rated solar panel on the EnergySage Marketplace. The biggest downside to Maxis solar panels is the price tag.

Are high-efficiency solar panels a good investment?

Premium, high-efficiency panels may provide even greater value increases due to their superior performance and sleek aesthetics. Buyers appreciate systems that look good and produce maximum electricity. The best part?

Unlike most home improvements that lose value over time, solar panels

continue generating savings for the new homeowner.

Are Panasonic solar panels a good choice?

Panasonic panels perform well in hot climates. They have one of the highest efficiency ratings on the market and are designed to withstand high temperatures, making them a good choice for homeowners in hot regions. We also think Panasonic makes great solar batteries.
