

Photovoltaic panel size 310w

Overview

The PERC 60 is a 60 cell solar panel featuring a sleek, all-black design coupled with outstanding power output. Its design makes it ideal for residential and commercial rooftop systems. It is certified for use in most harsh weather conditions: salt mist and ammonia. Tested to withstand 5631 Pa snow load and 185 mph.

American quality panels that guarantee the highest power output. PERC and 5 busbars drive 18.65% module efficiency. Positive tolerance of -0~ 3%.

The low thermal coefficient produces greater energy production at high operating temperatures. The module provides a high energy yield at low NOCT =.

Our modules receive multiple quality checks throughout the manufacturing process and are subject to stringent quality and reliability testing. Mission Solar Energy.

Our modules offer an industry-leading 25-year performance warranty independently backed by Powerguard's third-party insurance and a 12-year product warranty.
