Our comprehensive range of services includes solar installation, solar energy solutions, and manufacturing and supplying high-quality solar panels. We are dedicated to providing ...

Solar power in Belarus

In June 2016, a solar farm in the Molodechno area with a capacity of 5.7-5.8 MW was launched - more than any of the previous ones, not only in Belarus, but also in Estonia, Lithuania, Latvia and Poland. In August of that same year, the Solar II [uk] farm was opened in Bragin District, more than three times its predecessor's capacity. In 2017, about 30 photovoltaic power plants with a total capacity of about 41 MW were used. In the same year, the largest photovoltaic farm in Rechytza

[Climate Resource Potential to Develop Solar Power in Belarus](#)

Abstract. The work analyses climate resources that can potentially be used to develop solar power in Belarus efficiently. The authors determine space-time variability of radiation regime ...
