

Polish energy storage company

Overview

What is Polish Energy Storage Association?

Polish Energy Storage Association – together we are building a modern, solid and secure electric power system in Poland. We are integrating innovative companies and organisations involved in developing the power sector and environment protection, we are promoting and supporting energy storage facilities.

Why should you invest in Stora energy?

The market fundamentals are clear: growing renewable generation, urgent need for flexibility, and a policy environment that's catching up fast. Investors who move early stand to benefit from high-quality project access and long-term returns. Stora Energy is a Poland-based renewable energy developer with an international outlook and ambition.

What is a smart energy storage system?

Smart electricity storage system it's more than a battery. It is a solution that enables loading and unloading the warehouse in modes adapted to the needs of users. What is different energy storage from generators, the use of stored electricity without noise, fuel and maintenance. Our latest product is an energy storage set with an inverter.
