

Portable power bank outdoor waterproof

Overview

In this guide to the best waterproof power banks, you will learn which power banks will give you the most charge for their weight and size as well as which can withstand a knock or getting wet. Find out how to choose a power bank size for maximum output and minimum weight.

What is the best waterproof power bank?

As you can see from the chart below, an IP68 would be the highest possible rating. However, most of the best waterproof power banks are rated to IP67, which is more than enough protection for rugged outdoor use.

How much Mah is a waterproof power bank?

The massive 30,000 mAh is enough for up to 13 full charges of most smartphones and is so powerful that it can be used with laptops and portable gaming devices. If you need a waterproof power bank to use outdoors and last for multiple days at a time while still charging all your gadgets, this is 100% the one to get.

Are nestout power banks waterproof?

Our power banks provide robust, uninterrupted energy to keep you connected and powered up, no matter where your outdoor pursuits take you. NESTOUT power banks are engineered for resilience. With waterproof, dustproof, and shock-resistant features, these outdoor batteries are built to withstand the rigors of outdoor environments.

Do you need a waterproof power bank?

If you only need a small waterproof power bank to use in emergencies to charge your phone, then this is perfect. It stays charged for weeks at a time if you don't use it, and it doesn't matter if it gets covered in dust, mud, or soaked in the rain.

Are Anker power banks waterproof?

Anker power banks are not waterproof and nor do they claim to be. The casing

is made from waterproof materials but does not have a waterproof construction. Water can get in through the joints and the charger input, so it won't fare well if submerged. If you spill water on it or it gets a little bit wet in the rain though, you should be ok.

Are waterproof power banks rated IP 68?

The vast majority of waterproof power banks are going to be rated IP 66 or 67 but not 68. An underwater camera will be rated IP 68, but not a rugged powerbank. A few pieces of terminology before you delve into the review, just in case you are unfamiliar with the various measurements used to describe portable chargers.
