

Power Company Base Station

Overview

Does base power have a battery system?

Base Power is currently buying much of its battery technology and the energy it delivers from suppliers while working on its own battery storage system that can be installed more quickly. In the years ahead, Base Power also plans to build its own wind and solar farms to supply power.

How much is base power worth?

The company's investors value the business at \$300 million, according to people familiar with the financing terms who asked not to be identified because the information is private. Base Power offers transparent monthly billing with no hidden fees and no misleading rebate programs.

Why should you choose base power?

Base offers fair, fixed rates and reliable backup power. Since revenue comes from the grid, not customers, Base avoids hidden fees and surprise rate hikes. Your agreement also legally guarantees your rates stay below the market average.

Does base power charge a monthly fee?

Base Power offers transparent monthly billing with no hidden fees and no misleading rebate programs. Base batteries are designed to last 15 years and withstand extreme temperatures and weather. Base Power owns the batteries and handles any maintenance required. For more information, please see the FAQ section of the company's website.
