

Price of household energy storage power supply in Togo

Overview

Where does Togo import electricity from?

Togo generates some of its own electricity but imports the majority of its needs from Nigeria and Ghana. The majority of Togo's generation capacity is thermal. The page below gives an overview of the energy sector in Togo.

How much does electricity cost in Togo?

Through Power Africa's support, Togolese households now pay 1,000 CFA (\$1.60) for upfront electricity connection costs, a 100-fold decrease from the previous 104,000 CFA (\$167.00).

What type of electricity does Togo use?

Renewable electricity here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal power. Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. Togo: How much of the country's electricity comes from nuclear power?

.

Can Togo achieve universal access to electricity?

Demand for electricity in Togo has increased rapidly in line with economic growth, but energy production capacity remains insufficient to trigger structural transformation and private sector development. The progress made and the favourable outlook should help to achieve universal access to electricity, which the authorities have set for 2030.
