

Price per watt of lightweight photovoltaic modules

Overview

The price of solar panels changes depending on where you live, but the average for installation is just under \$29,000 or \$2.75 per watt. On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar.

Price per watt of lightweight photovoltaic modules

[2025 Solar Panel Costs: Ultimate Guide to Pricing and Savings](#)

This typically translates to about \$2.50 to \$3.50 per watt of installed capacity (more on price per watt below). The total price depends on your system size, location, roof type, and ...
