

Replacing batteries on rooftop base stations

Overview

How do you replace a battery in a base station?

To replace batteries in a SimpliSafe base station, rotate the base counterclockwise (CCW) to remove it, then remove the batteries and replace them while ensuring the (-) and (+) orientation. When disposing of NiMH batteries, they should be recycled.

How to remove a battery from a SimpliSafe base station?

To remove the battery from your SimpliSafe base station, first locate the battery compartment on the bottom of the base station.

Where is the battery compartment on a SimpliSafe base station?

The battery compartment on a SimpliSafe base station can usually be found on the bottom. This is where the magic happens when it comes to removing the battery.

How many batteries does the base station take?

The Base Station takes four (4) 1.2V, 1300mAh nickel-metal hydride (NiMH) rechargeable batteries. Regular alkaline batteries should never be inserted into the Base Station, as they may damage the device. Once you have acquired the necessary NiMH rechargeable batteries, you can follow the steps below to replace them:.

How do you remove a NiMH battery from a base station?

Remove the power plug from the bottom of the base station to expose one screw. Remove the screw, rotate the base counterclockwise, and it will pull off. Remove the NiMH batteries and replace them while ensuring the correct (-) and (+) orientation. When disposing of NiMH batteries, they should be recycled.

How do you remove a battery from a security system?

To remove the battery from a SimpliSafe Base Station, first locate the battery compartment on the bottom of the device. This compartment houses the rechargeable battery that powers the device.
