

Romania New Energy Photovoltaic Inverter

Overview

Is Romania ready for a large-scale solar project?

Romania has set ambitious targets for developing renewable energy sources, including solar power. This article provides a comprehensive overview of the current state of large-scale PV projects in Romania, covering project details, readiness levels, key players, and the overall impact on the energy sector and the environment.

How does Romania support the production of solar / PV energy?

The Romanian State supports the production of solar / PV energy by offering six (6) green certificates for each MWh produced and injected into the grid.

Is Romania back on the map of res investments?

The last three years put Romania back on the map of the RES investments with an unprecedented appetite from global investors accounting to more than 30 GW of projects under development, some being among the largest in Europe in terms of planned size. Author Zoltan Nagy-Bege, Energy Market Department Director Ciga Energy
