

Senegal energy storage cabinet battery project bidding

Overview

Will Infinity Power build a 40 MW battery in Senegal?

Infinity Power, a joint venture between Egypt's Infinity and UAE's Masdar, has sealed a 20-year capacity change agreement related to a 40-MW/160-MWh battery energy storage systems (BESS) project with Senegal's national electricity company Senelec. Infinity Power will build the battery at the Tobene substation in the city of Thies.

Will a 40 MW battery energy storage system improve Senegal's national grid?

The agreement focuses on implementing a 40 MW battery energy storage system to improve the stability of Senegal's national grid. The system will be one of West Africa's largest upon completion in 2025 – with construction set to begin in early-2024 at the Tobène substation in Thiès – and will be integrated with the Taiba N'Diaye wind farm.

When will a battery energy storage system start in Senegal?

Construction of the battery energy storage system is expected to commence in early 2024 at the Tobène substation in Thies and is expected to become operational in 2025. Once complete, it will be one of the largest of its kind in West Africa, and will help Senegal to avoid approximately 37,000 tonnes of carbon dioxide emissions each year.

Does Senegal have a capacity change agreement with Infinity Power?

Senegal's national electricity company Senelec has entered into a 20-year capacity change agreement with Infinity Power, a joint venture between Egypt's Infinity and the UAE's Masdar, to establish a battery energy storage system.

Why is battery storage important in Senegal?

Battery storage offers incredible opportunities for Senegal to reap the benefits of renewables, while ensuring people get a secure, reliable supply of energy.

We are excited to begin a promising new chapter in Senegal and further strengthen our work in the renewable energy sector.”.

When will a solar power plant be built in Senegal?

“This agreement paves the way for the construction to begin in May 2025, with the deployment of a 60MWp photovoltaic plant coupled with a 90MWh storage system.” Voltalia is to supply the PV infrastructure for the solar power plant, which will operate on Senegal’s national grid managed by SENELEC.
