

Serbia Small Communication Base Station EMS Construction

Overview

What is the EMS service in Serbia?

The EMS service in Serbia is EMS Serbia, part of PE Post of Serbia which is Serbia's designated universal postal service provider, supporting customers, businesses and communities worldwide. PE Post of Serbia was founded in 1840 and joined the EMS Cooperative in 2010.

How much does EMS cost to build a transmission line?

The project will be funded through EMS own funds, a grant from the Western Balkans Investment Framework (WBIF) and a loan from German development bank KfW. EMS said earlier the construction of the transmission line would cost about 59 million euro (\$65 million).

What is the Obrenovac-Bajina Basta transmission line?

The Obrenovac-Bajina Basta transmission line marks the third phase of the Trans-Balkan Power Corridor project which aims to connect the electricity transmission systems of Serbia, Montenegro, and Bosnia and Herzegovina to Croatia, Hungary, Romania and Italy through either 400 kV overhead lines or a submarine cable.
