

Solar Power Home Inventory

Overview

Why should you buy a solar-powered home?

How exciting! Owning a solar-powered home can help you save on your energy bills, reduce greenhouse gas emissions, and be more energy independent. And thanks in part to investments from the Solar Energy Technologies Office, the cost of solar energy is coming down every year.

Does surplus solar offer inventory pricing?

Inventory pricing is not listed and will be provided by request. LOC. At Surplus Solar Products Inc. we purchase both new and used surplus solar energy material then match that material with you. Our stock is constantly changing, but frequently includes solar electric panels in a broad range of wattages, frame sizes and colors.

How do I choose the best home solar panels?

When it comes to choosing the best home solar systems, understanding the types of solar panels available is crucial. There are three main types: monocrystalline, polycrystalline, and thin-film. Each has its own benefits and drawbacks in terms of efficiency, durability, and cost. Monocrystalline panels are made from a single, pure silicon crystal.

Should you buy a solar-powered home in the Ozarks?

Solar-powered home in the Ozarks. Photo by Douglas Hutchings. Thinking of buying a home with a solar energy system already installed on the roof?

How exciting! Owning a solar-powered home can help you save on your energy bills, reduce greenhouse gas emissions, and be more energy independent.

Should I add a storage unit to my powerhome Solar System?

Reliable electricity when you need it – that's peace of mind. By adding a

storage unit to your PowerHome residential solar system, you can generate clean, renewable energy for your home that is available when you need it. Even in a power outage, you won't feel powerless.

Which solar panel is best for residential use?

The MSE PERC 60 looks more like the original solar panel technology, with visible cells. It works well for both residential and commercial use. The MSE PERC 72 generates the most electricity and is the only solar panel from Mission Solar that the company recommends for utility use. Who We Recommend These Solar Panels For:
