

Solar all-in-one machine for self-operated indoor home use

Overview

Does your home need a solar energy backup system?

Having a reliable solar energy storage backup for your home is critical. However, not all backup systems are created equal. Sol-Ark's 15K-2P Whole Home hybrid inverter is a breakthrough in home power protection that redefines adaptability, flexibility, and performance.

What is an all-in-one hybrid inverter?

An all-in-one hybrid inverter design streamlines solar energy systems by combining multiple components into a single unit, enhancing efficiency, simplifying installation, reducing overall costs, and providing seamless energy management and backup power capabilities in one integrated solution.

How does a solar energy system work?

From sunrise, the system captures solar energy and delivers it directly to your home through its grid-tied output. Surplus energy is automatically stored for use during peak hours, at night, or in the event of a short-term outage.

What is a Sol-Ark 15K whole home inverter?

The Sol-Ark 15K Whole Home inverter is designed to transition seamlessly between grid- connected and independent power sources, optimizing efficiency in real-time.

What is a Sol-Ark 15K whole home?

Whether you're preparing your home for emergencies, sailing the high seas, or powering a hunting cabin, the Sol-Ark 15K Whole Home offers flexibility and adaptability, poised to become the standard for grid-tied or off- grid backup.

Are DIY solar panels UL certified?

Connect some batteries and solar panels, change the settings, and you are

done. The DIY battery community has used these units 24/7 for years! They are extremely dependable. As of 2021, they are now UL certified! This means that the components inside the units are high quality.
