

Solar sun room power generation system

Overview

What is a commercial sunroom?

Commercial sunrooms by Solar Innovations ® provide the strength, durability, and customization options second to none in the industry. Solar's glazed structures can be directly on the ground or atop high rise buildings.

What makes a sunroom a great addition?

Sunrooms are the perfect four-season addition to increase the view and create a focal point for any home or business. Solar Innovations ® 's custom designed structures include durable aluminum framework. They are tailored with the most comprehensive line of aluminum accessories in the industry.

Do sunrooms add value?

Not only do sunrooms expand conditioned living space, they also provide natural light, protection from the elements, and scenic seating areas for dining or simply enjoying nature without having to leave the building. In addition, the addition of a glazed structure adds to the property value.

Does a glazed sunroom add value?

In addition, the addition of a glazed structure adds to the property value. Residential sunrooms can be designed as small additions or large, free standing structures. All dimensions, shape, materials, and configurations are custom designed for each project.

Are sunrooms a 4 season addition?

Sunrooms are the perfect four-season addition to increase the view and create a focal point for any home or business. All sunrooms are completely custom.

Are solar glazed structures a good choice?

Solar's glazed structures are constructed from durable aluminum framework

and the HVHZ certifications speak to the strength engineered into every structure solar produces. Though preferential in many commercial applications, an all-aluminum structure is not always ideal for a residence.
