

Somaliland double-glass photovoltaic module prices

Overview

How many solar cells are in a photovoltaic module?

Photovoltaic modules typically feature 60 cells. They also come with standard aluminum frames, white backsheets, and a power output ranging from 275 to 325 Wp.

Are photovoltaic module prices decreasing?

Recent investigations confirm that the end of photovoltaic module price declines was apparent within the last few months. While the average price level was still slightly decreasing at the start of 2013, compared to December 2012, a trend reversal was already visible at the end of January.

Are photovoltaic module prices stagnating?

While module prices for non-EU projects are in the lower 40 eurocent range, prices within the European Union are stagnating just above the 50 eurocent mark.
