

Space Solar Power Station System Project

Overview

Chinese scientists have announced a plan to build an enormous, 0.6 mile (1 kilometer) wide solar power station in space that will beam continuous energy back to Earth via microwaves.

Space Solar Power Station System Project

[China Is Building a Solar Station in Space That Could Generate](#)

China is currently planning to build a gigantic solar power station in space. To get parts of the array out of our atmosphere, scientists are working on a reusable heavy lift rocket ...

[Space solar power generation: A viable system proposal and](#)

We propose a scalable and economically efficient system for SSP enabled by high-efficiency, radiation-hard solar cells; high-efficiency integrated circuits; flexible phased arrays; ...
