

Switzerland s operational energy storage projects

Overview

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

How will a large-scale storage system help the Swiss power grid?

In this way, the system will help to stabilise the Swiss power grid. With this large-scale storage system, we are making a decisive contribution to the implementation of Switzerland's Energy Strategy 2050, which aims to convert 100 per cent of its energy supply to renewable energies by 2050.

Where in Switzerland will Primeo energy install a battery storage system?

In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours. Primeo Energie will use the stand-alone storage system to make energy more flexible and store electricity temporarily and withdraw it again when it is needed.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

Is MW storage the country's largest battery storage project?

MW Storage is a developer of BESS projects which is also active in the German market, with a 100MW/200MWh project underway that it claimed is the country's largest. The inauguration ceremony for the BESS project. Image: EWS AG. EWS AG and MW Storage have expanded a battery storage project in Switzerland to 28MW, making it the country's largest.

How will Primeo energy contribute to the Swiss energy transition?

We are delighted to be taking a significant step in the Swiss energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours.

Switzerland s operational energy storage projects

[Swiss Energy Storage Project Bidding: Key Insights for 2025](#)

As we approach Q2 2025's bid deadline, one thing's clear: Switzerland isn't just buying storage systems--they're procuring grid resilience. The winners won't be those with the cheapest kWh ...

[The world's largest flow battery energy storage system is being ...](#)

Full operational capacity is planned for 2030. At that point, the facility is expected to become not only the world's largest redox flow battery but also one of Europe's most important ...

[Zelestra Signs Tolling Agreement with BKW for 2 GWh BESS Project ...](#)

1 day ago· Zelestra Signs Tolling Agreement with BKW for 2 GWh BESS Project in Italy Zelestra has signed a long-term tolling agreement with Switzerland-based BKW to deliver a 2 GWh ...

[Data centre demand is new driver for SunCable project](#)

4 hours ago· SunCable has confirmed its massive renewables and energy storage project planned for the Northern Territory could be operational

before the end of the decade as part of ...

[Large-scale battery for Switzerland: 65 megawatt hours of capacity](#)

With this large-scale storage system, we are making an important contribution to implementing Switzerland's Energy Strategy 2050. The country is pursuing the goal of transitioning its ...

[List of Operational \(Completed\) Grid-scale/Utility Scale Energy Storage](#)

Search all the commissioned and operational GUSESS projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Switzerland with our comprehensive online database.

[Switzerland's EUR2 Billion Energy Storage Project: Powering the ...](#)

Switzerland's new EUR2 billion energy storage initiative isn't just another infrastructure project - it's a moonshot combining hydropower tradition with cutting-edge tech. Let's unpack ...
