Ltd, General Electric Company, BCPG PCL, and the Electricity Generation Authority of Thailand., among others. Image © Mordor Intelligence.

How will Thailand's energy policy affect the energy sector?

As Thailand plans to add significant amount of renewables capacity in the next 13 years, the government would consider more flexible gas power contract. As a result, thermal power plants will likely see their operational hours cut further. This will lead to costlier coal and gas power. Source: BloombergNEF.
