

# The largest hybrid energy storage system

## Overview

---

Energy Superhub Oxford, a project with a lithium-ion-vanadium hybrid battery energy storage system (BESS) totalling 55MW, has officially launched.

## The largest hybrid energy storage system

---

### [World's largest lithium-vanadium hybrid energy storage ...](#)

The world's largest lithium-vanadium battery hybrid energy storage system (BESS), the Oxford Super Energy Centre (ESO), will soon begin full trading on the UK electricity market, ...

### [World's largest lithium-vanadium hybrid energy storage system](#)

The world's largest lithium-vanadium battery hybrid energy storage system (BESS), the Oxford Super Energy Centre (ESO), will soon begin full trading on the UK electricity market, ...

### [Energy Superhub Oxford hybrid battery goes live / Invinity](#)

The grid-scale battery storage system forms part of the £41 million Energy Superhub Oxford project, developed by Pivot Power and partially funded by UKRI under the 'Prospering from the ...

### [Hybrid energy storage systems for fast-developing renewable energy](#)

For example, the Energy Superhub Oxford project, which was operational in 2021, is the largest hybrid energy battery storage system in

the world, with a capacity of 55 MWh (50 ...

### **Darden Clean Energy Project: The World's Largest Battery Energy Storage**

The California Energy Commission (CEC) has given the green light to the Darden Clean Energy Project (DCEP), now officially the largest battery energy storage system in the ...
