

# **Three energy storage projects in Italy**

## Overview

---

Does Italy need energy storage?

Highlighting Italy's "considerable potential and a significant need for energy storage," he said that the company has already originated over 1,000 MWh of standalone battery storage projects and over 100 MWp of hybrid renewable energy schemes across several Italian regions.

Is Italy a leader in industrial energy storage and commercial energy storage?

Accordingly, there is a growing market for industrial energy storage and commercial energy storage projects, positioning Italy as a leader in advanced Italy storage solutions and renewable energy Italy initiatives.

Why is a grid-scale battery energy storage system important in Italy?

As the penetration of solar power increases, grid stability has become a critical issue. In response, Italy is prioritizing the development of grid-scale battery energy storage systems (BESS Italy) alongside new industrial and commercial energy storage projects.

How much will Italy invest in utility-scale storage?

In support of these ambitious objectives, the Italian government recently received approval from the EU Commission for investment schemes aimed at developing at least 70 GWh of utility-scale storage—an initiative projected to attract over €17 billion in investments over the next decade.

Can Penso power take a leading role in Italian energy storage?

"Italy is a priority market for us and the combination of skillsets that this joint venture brings together positions us to take a leading role in Italian energy storage", said Richard Thwaites, CEO of Penso Power. The company already has operational storage assets in the UK and Australia.
