

Three-phase water pump inverter price

Overview

The price of mid - range water pump VFD inverters typically falls between \$300 and \$1000. They are a popular choice for small businesses, farms, or commercial buildings with moderate water pumping needs. High - end water pump VFD inverters are designed for large - scale industrial applications. What is a 3 phase solar pump inverter?

The 3 phase solar pump inverter is widely used in agricultural irrigation, domestic water supply, livestock watering, aquaculture, emergency water supply, and desert reclamation. 5.5 kW solar pump inverter with affordable price, AC 13A output at 3-phase, MPPT tracking technology, and real-time detection of power voltage.

Which solar water pump inverter is available online?

The 5.5kW three-phase AC 220V solar pump inverter is now available online. This solar pumping inverter integrates advanced MPPT tracking for precise voltage detection and optimal performance. The solar water pumping system supports AC and DC input, with a DC voltage range of 300V~380V and a power factor >0.99.

What is a solar pump inverter?

A solar pump inverter converts the DC power generated by solar panels into AC power suitable for driving a water pump. Easy to use and install. Affordable price 7.5 kW (10 hp) solar pump inverter for sale, AC output 17A at 3-phase, recommended DC MPPT range (350V, 750V), DC voltage (280V, 750V).

How much power does a solar water pump inverter have?

Affordable price 7.5 kW (10 hp) solar pump inverter for sale, AC output 17A at 3-phase, recommended DC MPPT range (350V, 750V), DC voltage (280V, 750V). Equipped with IP20 protection class and RS485 communication mode, the solar water pump inverter supports AC and DC input and works at (-10°C, 40°C).

What is a 4 kW solar pump inverter?

4 kW solar pump inverter with MPPT tracking technology for sale, AC output current 9A at 3-phase, DC voltage range (280V, 750V). Output frequency 0~400 (Hz) and power factor >0.99. The pump inverter supports AC and DC input, storage temperature (-20°C, 60°C) and ambient temperature (-10°C, 40°C).

What is a 15 hp water pump solar inverter?

15hp water pump solar inverter with MPPT control, AC 25A output at 3-phase, rated power 11kW, and DC voltage range (280V, 750V). 15 hp solar pump inverter with RS485 communication and IP20 protection, supports AC and DC input, works at (-10°C, 40°C).

Three-phase water pump inverter price

[Three Phase Solar Pump Inverter. MPPT Solar VFD. DC 350~ ...](#)

Designed for compatibility with both DC solar input (350~ 750V) and AC backup (380V -460V 3-phase), this solar inverter ensures uninterrupted water delivery regardless of solar conditions.
