

Tonga Centralized Energy Storage Power Station

Overview

The Popua Power Station – Battery Energy Storage System is a 5,000kW energy storage project located in Tonga. The rated storage capacity of the project is 2,500kWh. The electro-chemical battery energy storage project uses lithium-ion as its storage technology. What is Tonga's first large scale battery energy storage system?

Tonga's first large scale Battery Energy Storage System to be built at the Popua Power Station, contributing to Tonga's 50% Renewable Energy target. Akuo Energy SAS (Akuo Energy) is a renewable energy company that develops, finances, builds and operates renewable energy power plants.

What is Popua power station – battery energy storage system?

The project was announced in 2018 and will be commissioned in 2021. The Popua Power Station – Battery Energy Storage System is being developed by Akuo Energy. The project is owned by Akuo Energy (100%). The key applications of the project are renewable energy integration, electric energy time shift and grid support services.

What is the Tonga energy road map?

The Tonga Energy Road Map (2010–2020) was instrumental in reducing Tonga's dependence on fossil fuels and increasing energy access and affordability.
