

Total exports of photovoltaic modules

Overview

From January to August, cumulative module export capacity reached 128.3GW, up 13.2% year-on-year. Cell export capacity reached 26.3GW, marking a 72% year-on-year increase. The cumulative export capacity of cell and modules reached 154.6GW, reflecting a year-on-year increase of 20.2%. What is China's photovoltaic export value?

The export value, which includes photovoltaic products such as silicon wafers, cells and modules, reached about \$43 billion during the first 10 months, the China Photovoltaic Industry Association said on Friday.

What data is included in the photovoltaic industry report?

This report includes summary data for the photovoltaic industry from annual and monthly respondents. Data include manufacturing, imports, and exports of modules in the United States and its territories. Summary data include volumes in peak kilowatts and average prices.

Can data be published for different types of PV cells & modules?

Data can no longer be published for the specific types of PV cells and modules, or by region. Table changes: Table 1. Not published for 2022. Table 2. Unchanged, includes data from annual and monthly respondents. Table 3. Unchanged, includes data from annual and monthly respondents. Table 4.

How has China shaped the global supply and demand of solar PV?

Government policies in China have shaped the global supply, demand and price of solar PV over the last decade. Chinese industrial policies focusing on solar PV as a strategic sector and on growing domestic demand have enabled economies of scale and supported continuous innovation throughout the supply chain.

Total exports of photovoltaic modules

[China's PV module exports in July: rebound in Europe alongside ...](#)

4 days ago· China's total module exports from January to July 2025 reached 148.6 GW, down 2% YoY from 151.48 GW. In July 2025, the top five single-country importers of Chinese modules ...

The trend of "volume increase and price decrease" in PV module exports

Specifically, the total export value of PV modules in May reached USD 2.623 billion, a year-on-year drop of 36.8%, and a slight decrease of 1.33% from the previous year.
