

Ukrainian lithium iron phosphate energy storage equipment

Overview

Will Morrow deliver power storage systems to Ukraine?

Our Standards: The Thomson Reuters Trust Principles. Norwegian battery startup Morrow, which opened its first factory earlier this month, has reached a preliminary deal to deliver power storage systems to Ukraine, the company said in a statement on Tuesday.

Why does Ukraine want energy storage facilities?

Ukraine says Russia is attacking electricity infrastructure in the ongoing war, damaging the power supply and leading to frequent blackouts. That means Kyiv is keen to establish energy storage facilities in every school and hospital as soon as possible, Morrow quoted SAE as saying.

Why does Ukraine need a battery industry?

"Ukraine has a large estimated need for batteries over the next years to help stabilise their energy system," the company added. Norway has said it is keen to develop a battery making industry, benefiting from access to the country's renewable electricity and a proximity to European customers.
