

United Arab Emirates purchases mobile energy storage power

Overview

Why are Saudi Arabia and the United Arab Emirates using battery storage systems?

Saudi Arabia and the United Arab Emirates are taking advantage of falling prices to load up on Chinese-made battery energy storage systems, so they can boost their renewable energy ambitions. Battery storage systems are seen as crucial to integrating solar and wind energy into electrical grids.

Who is investing in Abu Dhabi's solar & battery project?

Meanwhile, technology for Abu Dhabi's round-the-clock solar and battery project will be provided by Chinese battery maker CATL, whose listing in Hong Kong in May was the world's biggest so far this year. Kuwait's sovereign wealth fund was among the cornerstone investors.

Does Saudi Arabia need battery energy storage?

Both will require battery energy storage to support their renewables targets, experts say. Rystad Energy expects Saudi Arabia's battery energy storage capacity to surpass 11 gigawatt hours (GWh) by the end of the year, from zero at the start of 2024.
