

Uzbekistan communication base station wind power bidding

Overview

Does ACWA Power have a wind power plant in Uzbekistan?

This is not ACWA Power's first venture in Uzbekistan. Two years ago, the company won the contract to construct the country's first wind power plant, a 100 MW facility in Karaozak, with a winning bid of \$2.57 per kWh of electricity. What is ACWA doing in Uzbekistan?

ACWA in Uzbekistan is also involved in other projects. Thus, the company is building another 100 GW wind farm in Karakalpakstan and is participating in the creation of two 500 MW wind farms in the Bukhara region. It also signed agreements to create two photovoltaic power plants, as well as energy storage complexes.

Are Li-ion batteries a good investment in Uzbekistan?

Li-Ion batteries have seen in the last years a reduction in cost in the order of 25-30 %/year. Northwest part of Uzbekistan has high wind potential, whereas main load centres are in the South East. This requires HV or EHV OHTL to connect key wind centres with load centres
