

Vanuatu photovoltaic power station supporting energy storage manufacturer

Overview

Led by a consortium of consultants, including TTA, IM3, ECA, and Scinergy Pacific, the project focused on constructing a 1.16 MWDC solar PV farm and a 0.4 MW/2.5 MWh Battery Energy Storage System (BESS) at the Tanna power station. How can Vanuatu benefit from solar power?

With this project, 17,000 households throughout Vanuatu will be supported to access non grid, renewable electricity through solar. With low population densities and large distances between communities, a key challenge for the project has been providing access to electricity in a way that is cost effective and efficient.

Does Vanuatu have a Power Cooperative?

Throughout the first year of operation, the local energy service company will provide free maintenance and train members of the local communities to operate and maintain the power station. "This is the first-ever power cooperative for Vanuatu's last mile communities.

What is the Vanuatu micro-grid?

Photo: Ian Iercet Launched in September in the communities of Wintua and Lorlow, the micro-grid is Vanuatu's first-ever community-run power system: members of the communities own and manage it.

What is Offgrid living in Vanuatu?

Offgrid Living for many of Vanuatu's residents is synonymous with getting out of the hustle and bustle of the big city and enjoying a quiet and more relaxed lifestyle. PCS seeks to improve Vanuatu's Island Living through the provision of high quality solutions from reputable suppliers who understand remote living.
