

Venezuela energy storage battery tariff rate

Overview

How has the 2025 expansion of battery tariffs impacted solar storage?

The 2025 expansion of battery tariffs has significantly impacted the pricing structure of solar battery storage projects across the U.S. Utility-scale storage systems, often used to support renewable energy sources such as solar and wind, are now subject to import duties ranging from 54% to over 100% on components sourced from China.

How does tariff risk affect a battery energy storage system (BESS) project?

Mitigating tariff risk in battery energy storage system (BESS) projects is crucial for ensuring project financial viability, as tariff changes can significantly affect cost structures and overall project economics.

What were Venezuela tariff rates for 2019?

Venezuela tariff rates for 2019 was 10.19%, a 1.32% increase from 2018. Weighted mean applied tariff is the average of effectively applied rates weighted by the product import shares corresponding to each partner country. Data are classified using the Harmonized System of trade at the six- or eight-digit level.

How are battery tariffs reshaping global trade?

As new battery tariffs and expanded China tariffs continue to reshape global trade, U.S. policymakers and businesses are reevaluating the domestic battery supply chain. This section outlines the current status of U.S. battery production, the resources required to scale it, and the challenges involved in reducing reliance on overseas suppliers.

Are Chinese tariffs affecting the battery market?

The U.S. battery market has entered a period of pricing uncertainty due to expanded battery tariffs. Starting in 2025, new Chinese tariffs on imported lithium-ion cells and components—especially those used in energy storage

systems—have reached levels as high as 104%, according to updated trade filings.

What were Venezuela tariff rates for 2022?

Venezuela tariff rates for 2022 was 0.00%, a 13.61% decline from 2021.
Venezuela tariff rates for 2021 was 13.61%, a 0.45% decline from 2020.
Venezuela tariff rates for 2020 was 14.06%, a 3.87% increase from 2019.
Venezuela tariff rates for 2019 was 10.19%, a 1.32% increase from 2018.
