

Venezuela s largest photovoltaic panel manufacturer

Overview

Yingli has announced that it has supplied 1.1 megawatts (MW) of solar panels for Venezuela's largest solar project, a hybrid solar-diesel power plant located in Los Roques. How many solar panels does Venezuela have?

As the country's inaugural PV power plant, it contains more than 4,400 multicrystalline YGE Series solar panels. They are expected to generate over 1,400 megawatt-hours (MWh) per year, which is enough energy to power over 400 typical Venezuelan homes. The system began operating in May 2015.

Is Yingli Green energy supplying a solar farm in Venezuela?

Chinese photovoltaic manufacturer Yingli Green Energy announced this week that it supplied 1.1 megawatts' worth of solar panels for a solar farm in Los Roques, Venezuela, making the plant in question the largest in the country.

What is Yingli's first solar power plant in Venezuela?

This power plant is Yingli's first large-scale project in Venezuela: until recently, the Venezuelan market was concentrated in off-grid systems of 25 kilowatts (kW) and smaller, typically located in isolated regions. As the country's inaugural PV power plant, it contains more than 4,400 multicrystalline YGE Series solar panels.

Can solar energy be used in isolated rural communities in Venezuela?

It aims to develop the use of renewables within isolated rural communities includes solar. The future development of the solar energy sector in Venezuela with the growth of energy consumption and substitution of fossil fuels by renewable energy potential is likely to promote the solar energy market in Venezuela.

Should Venezuela be filled with photovoltaic panels?

Venezuela should have been filled with photovoltaic panels a long time ago. But the electrical emergency is opening up a small path for this energy

source, and the state hasn't taken advantage of this technology yet.

Can Yingli's power a hybrid plant in Venezuela?

A 1.1-megawatt, diesel-solar hybrid project at Los Roques in Venezuela — touted to be the largest of the country — has been successfully operating on Yingli's panels since May. The entire operation of the plant is being powered by Yingli's panels.
