

West Asia Solar Panel Manufacturers

Overview

Who is the world's largest solar panel manufacturer?

With over 300 GW of solar modules sold to date, JinkoSolar has been the world's largest solar panel manufacturer for five consecutive years, thanks in part to its vertically integrated production capacity, spanning from wafers to modules. Following closely are LONGi Green Energy and JA Solar, ranked second and third respectively.

Who makes the best solar panels in Japan?

Sharp is another Japanese solar panel manufacturer and one of the best solar panels manufacturers and electronics corporations in the world. Also, having started the development of solar cells in 1959, it is one of the oldest companies to invest in solar energy. It may not be as recognizable as Panasonic or Samsung.

Who makes the best solar panels in the world?

Talesun Solar is among the top 20 solar panel manufacturers in the world. It is a Chinese firm that stands out as a leader in PV module and cell manufacturing. Headquartered in Suzhou, the company boasts an annual production capacity of 5 gigawatts for solar modules and 4 gigawatts for cells.

How many solar module manufacturers are there in the world?

This insight comes from Wood Mackenzie's report, "Global Solar Module Manufacturer Ranking H1 2024", which analyzes over 38 solar module manufacturers from 11 countries. While the report focuses on the first half of the previous year, its findings offer a comprehensive look at the current state of the industry.

Who makes SunPower solar panels?

Since its establishment in 1985, SunPower has been at the forefront of the solar energy industry. Operating in all 50 states, the company established

Maxeon, its solar panel manufacturing arm, offering four lines of highly efficient monocrystalline solar panels with efficiency ratings surpassing 20%.

Is Panasonic a good company to buy solar panels?

While Panasonic is well-known for manufacturing electronic devices like smartphones, cameras, and air-conditioners, it is also a producer of solar panels. The PV modules from Panasonic are recognized for their exceptional reliability. Among their best series is the 330N HIT, consisting of 96 solar cells and boasting a 19.7% efficiency rate.
